

Arizona Department of Transportation CONSTRUCTION NOTICE

US 89 - Bitter Springs to Page

In summer 2008, the Arizona Department of Transportation (ADOT) is repaving approximately seven miles of US 89, south of Page and Lake Powell. The project area begins just north of the US 89A junction and the community of Bitter Springs at milepost (MP) 524, and extends north toward Page through “the cut” to MP 531.

- Drivers should expect daily changes in traffic patterns, and some project work will require reducing the roadway to one lane.
- During lane closures, flaggers, pilot vehicles and law enforcement officers will guide motorists through the project area.
- During construction, travelers should plan for delays of approximately 30 minutes, and speeds will be reduced to 25 mph.
- Vehicle travel lanes will be restricted to widths of 10 feet.
- ADOT expects to complete the project in September 2008.

For more information, call the project's toll-free hotline:
